

**PRO 8483IS2 – NAUJAS!! 4 colio 8MP 4K  
25X tinklo 100 m infraraudonųjų  
spindulių greitasis kupolas, išmanus  
sekimas, įskaitant maitinimo adapterį  
ir laikiklį.**

|                       |                                                                                     |
|-----------------------|-------------------------------------------------------------------------------------|
| DNR                   | Auto/Manual                                                                         |
| Dimensions            | Φ 173mm × 247mm ( 6.8" Φ × 9.7")                                                    |
| Enhancement           | HLC, BLC, DWDR                                                                      |
| IR Illumination       | Color□0.01Lux @ (F1.65□AGC ON)□B/W□0.002Lux @(F1.65□AGC ON); 0Lux with IR           |
| Image Sensor (CCD)    | 1/2.5" progressive scan CMOS                                                        |
| Lens (Optical)        | f=4.8-120mm lens,25x optical                                                        |
| Operating Temperature | -30°C ~ 55°C (-22°F ~ 131°F),90%RH less (non-condensing),Cold start at – 20°C       |
| POE                   | POE+                                                                                |
| Power                 | DC12V or PoE+ (802.3.at, class 3), (Max 22W, include IR on, Heater on, Fan working) |

|                          |                                                            |
|--------------------------|------------------------------------------------------------|
| Resolution (Best)        | 2560 × 1440                                                |
| Shutter                  | 1/1 s – 1/100,000 s                                        |
| Storage Media & Capacity | SD card slot inside, support microSD/SDHC/SDXC, up to 256G |
| Weight(Cameras)          | Approx. 2.1 Kg (13.22 lb.)                                 |
| Within Range of IR LEDs  | 100m                                                       |
